**TO  
COMMUNICATE  
EXCITE &  
CUSTOMERS**

# FIRST IMPRESSIONS ARE EVERYTHING

Designing on-site with your tablet will quickly turn prospects into customers.

We all know pictures are worth a thousand words and this is why the PRO Landscape Companion app is not only powerful, but the ultimate tool to communicate ideas quickly and win over customers.

## Instant photo imaging designs will help you close the sale

Snap a photo with your iPad® or Android™ tablet and start designing immediately.

Drag/drop plants and create patterns from grass, mulch and pavers.

Use locally stored images or access the entire PRO Landscape library of 17,000+ images online, directly from your tablet.

## Create scaled CAD drawings on-site

Designs can include property line, building shell, pavers, edging and plants.

Transfer your design to your desktop/laptop so there is no duplicated effort.

## Create quick bids right in the app

Once your design is complete, simply click to create an instant quote.

Plant sizes and prices are exactly the same as on your desktop/laptop version.

*"I created a photo imaging design in less than 10 minutes, showed it to the customer and she said 'I'll take it' before even asking the price."*

– Jim Helms, Helms Lawn Specialist, Inc.

# COMMUNICATE WITH PICTURES

What you create will visually speak to your customers giving them the ability to easily understand your vision.

Choose from the industry's largest and highest quality image library

Over 17,000 images or add your own.

Library includes plants by climate zone, hardscapes, water features, etc.

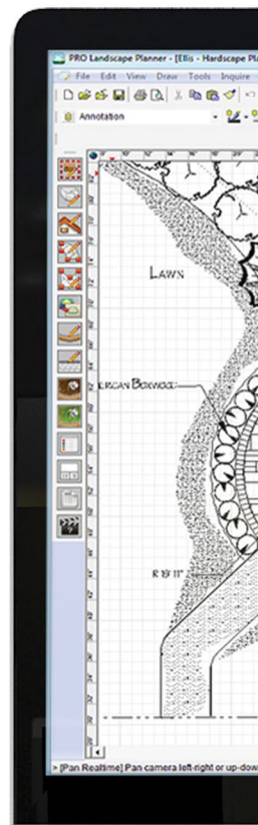

Create your own "favorites" for quick access to commonly used items.

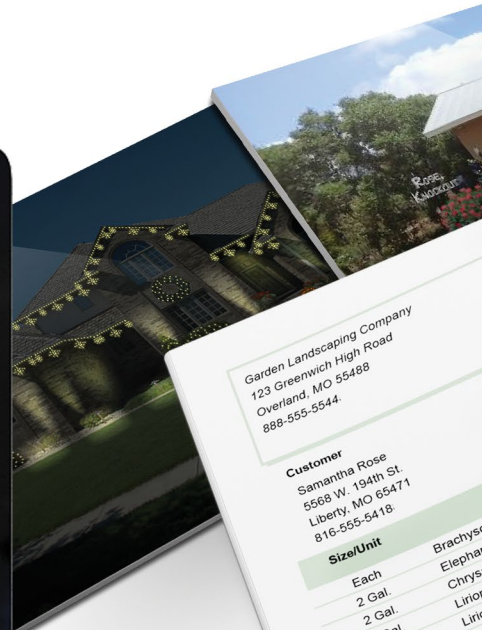

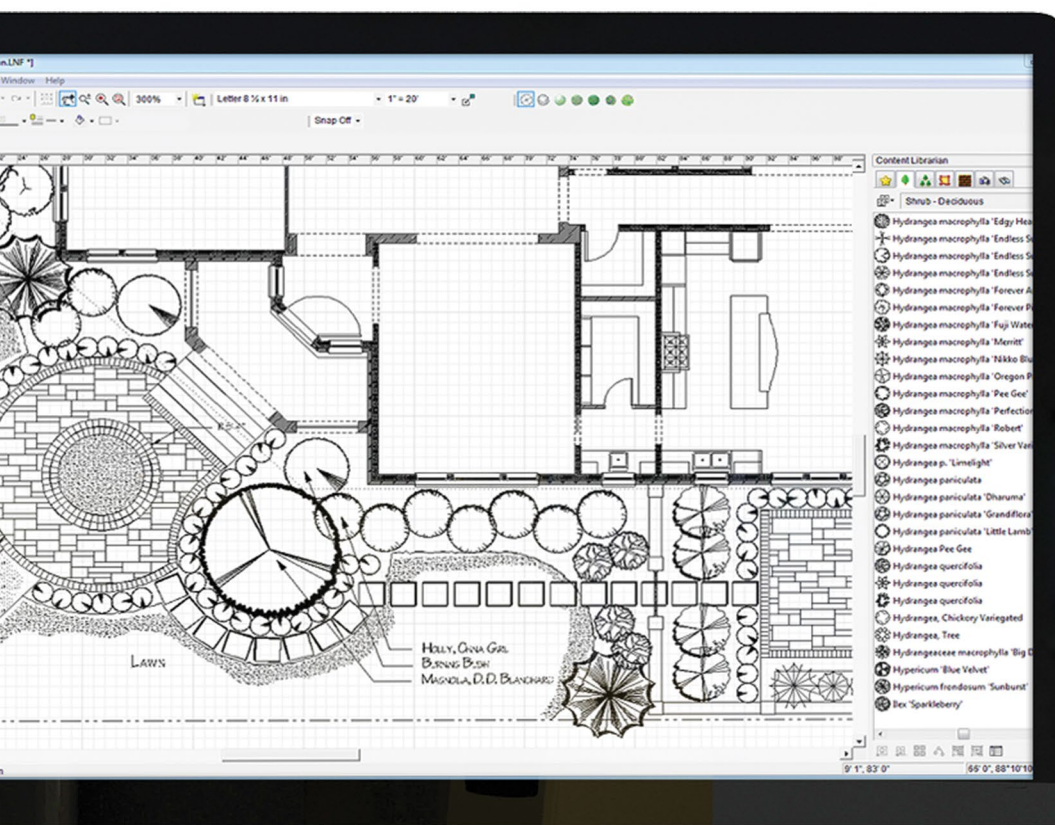

Perfect for both renovation projects and new construction

Cover up existing landscape using advanced, yet simple cloning tools.

Stunning night and holiday lighting designs

Create amazing night and holiday lighting designs from a picture taken during the daytime.

## CAD THAT'S BUILT FOR LANDSCAPE DESIGN

We're confident PRO Landscape is the easiest-to-learn and easiest-to-use CAD out there.

### Create and print precise drawings in any size or scale

Start quickly with a CAD or PDF file, survey/plot plan, Google Earth™ image or drone photo.

Customizable symbols are pre-assigned to specific plant species.

Design residential and commercial projects with irrigation, hardscapes, water features and outdoor living spaces.

Create stunning full color CAD drawings with ease.

### Add design details and technical specs

Annotate your designs with plant legends, title blocks, planting diagrams and hardscape specs.

### Instant quantity takeoffs, 3D designs, and print ready drawings

Saves you time by automatically calculating length, area and volume for edging, walls, pavers, mulch, irrigation and more.

Generate 3D walkthroughs and flyovers from your CAD drawings.

Create large, to scale, print-ready PDF files in seconds.

“Creating bids has always been a chore  
but literally a mouse click with PRO Landscape  
and I have a complete proposal with plant information.”

– Chris Walter, Computerized Landscape Design

## CLOSE SALES WITH WINNING PROPOSALS

Increase your close rate with accurate, complete,  
professional proposals.

Create instant quotes from your photo imaging or CAD projects

Proposals can include a cover page, quote, material list, plant information,  
and much more.

Easily make accurate quotes by entering your own pricing, including labor  
and tax rates.

Personalize your quotes by including your company logo and information  
on all your proposals.

Transfer quotes to your accounting program

Link your customers and quotes directly to Quickbooks.

Import your quotes into other green industry programs such  
as Clip, SLICEplus or Include Software.
