

# What's New in PRO Landscape Version 22

**Companion CAD – PRO** Landscape Companion contains a new CAD component which allows users to measure and design the site in a scaled drawing right on your tablet. The drawing can then be transferred right to the computer for additional modifications and design. Easily draw property lines, foundation walls, edging, and even specific plant materials.

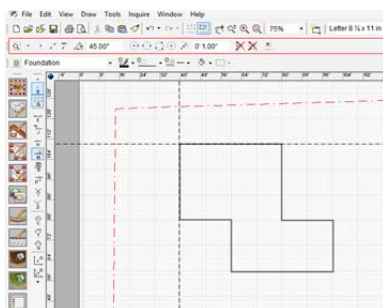

**Companion Rotate Objects** – You can now rotate objects in your photo imaging designs.

**Over 1000 New Images** – PRO Landscape now includes over 14,000 of the industry's highest quality images. The updated library includes images of plant material for all climate zones, hardscapes, light fixtures, and more.

**Interiorscape Enhancements** – In addition to the 14,000 total images, there are also over 2,000 commercial planter images for you to choose from. We've also added an option to search for interior plants. Great for those who are designing interiorscapes.

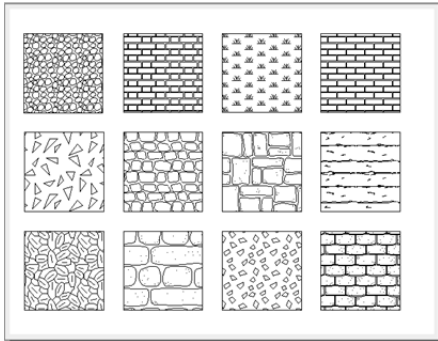

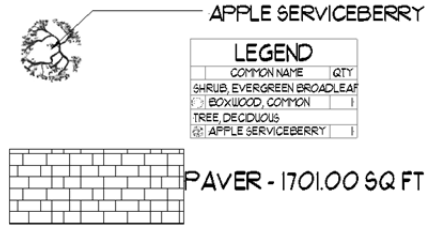

**Full Windows 10 Support** – PRO Landscape Version 22 supports Windows Vista and above and is fully compatible with the new Windows 10.

**Guidelines in Planner** – New guidelines in Planner give you an easier way to place objects at exact locations on a drawing. The new Guideline Tool also includes a new toolbar to help you set your guides in a clear and easy fashion.

# What's New in PRO Landscape Version 22

**New PRO Landscape Font –**  
A new “architectural” font has been added to give you an extra choice for your callouts, legends and title blocks.

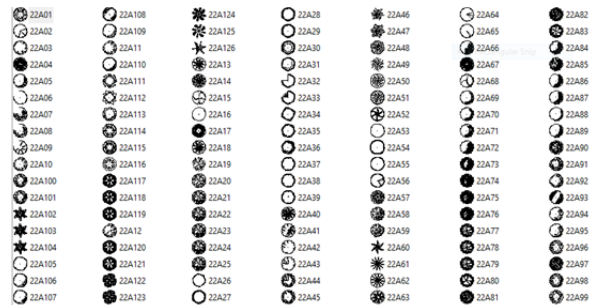

**New CAD Hatch Patterns From CADHatch.com –**  
Enhance your drawings even further with new patterns from CADHatch.com. Choose from a whole new library of new patterns you can use to represent new materials and patterns.

**Web Downloadable Install –** Now download your new copy or upgrade of PRO Landscape directly through the Internet. No need to wait for the physical product to be shipped.

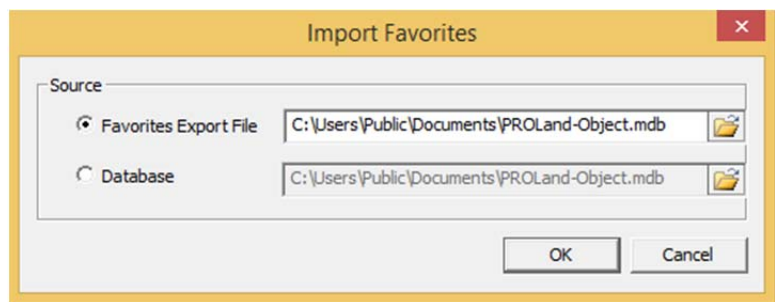

## 2016 Bonus Symbols –

We have added over 100 new CAD symbols that you can incorporate into your drawings. They will be found in their own custom category; Version 22 Bonus Symbols. You can easily replace an existing symbol with one of these new custom symbols.

## Import/Export Favorites –

This new utility allows users to share “favorites” between computers. Simply create your favorite items on one computer and then export those favorites to the second computer.

The new tool allows anyone using more than one computer to ensure that any additional computers are all using the same preferred list of favorite design elements.
