

Giving You the Design Tools  
to Communicate, Excite &  
**Win Customers**

Industry-Leading Landscape Design Software

**PRO Landscape**  
DESIGN SOFTWARE

Version 24

For nearly a quarter-century PRO Landscape has helped thousands of landscape contractors, designers, architects, and garden centers increase sales, profits and design efficiency.

**PRO Landscape covers all your design needs.**

**Not only is PRO Landscape flexible, it's also the most complete landscape design software you can buy, featuring:**

- Photo Imaging
- Easy-to-Use CAD
- Complete Proposals
- Free Companion Tablet App
- Night and Holiday Lighting

**Your PRO Landscape purchase also includes:**

- 60-day, money-back guarantee
- No monthly fees and free lifetime technical support
- Video tutorials for self-paced training
- Industry's largest image library—18,000+
- License for one user with installation on two computers, plus the use of the free Companion app on one tablet.

# First Impressions are Everything

Designing on-site with your tablet will quickly turn prospects into customers.

We all know pictures are worth a thousand words and this is why the PRO Landscape Companion app is not only powerful, but the ultimate tool to communicate ideas quickly and win over customers.

Instant photo imaging designs will help you close the sale

- Snap a photo with your iPad® or Android™ tablet and start designing immediately.
- Drag/drop plants and create patterns from grass, mulch and pavers.
- Use locally stored images or access the entire PRO Landscape library of 18,000+ images online, directly from your tablet.

Create scaled CAD drawings on-site

- Designs can include property line, building shell, pavers, edging and plant symbols.
- Transfer your design to your desktop/laptop so there is no duplicated effort.

Create quick bids right in the app

- Once your design is complete, simply click to create an instant quote.
- Plant sizes and prices are exactly the same as on your desktop/laptop version.

“ I created a photo imaging design in less than 10 minutes, showed it to the customer and she said ‘I’ll take it’ before even asking the price.”

– Jim Helms, Helms Lawn Specialist, Inc.

## Communicate with Pictures

What you create will visually speak to your customers giving them the ability to easily understand your vision.

### Create impressive visual designs with the industry's largest image library

- Easily import a photo of the customer's house or building from your phone or camera.
- Cover up existing landscaping on renovation projects using advanced, yet simple cloning tools.
- Overlay photos of plants by climate zone, grass, mulch, pavers, walls and more.
- Image library contains over 18,000 items or add your own.
- Create your own "favorites" for quick access to commonly used items.

### Stunning lighting designs and visual effects

- Create amazing night and holiday lighting designs from a picture taken during the daytime.
- Add plant labels, the before image or change your picture to an artistic effect like colored pencil or hand drawn to add visual appeal.

# CAD that's Built for Landscape Design

PRO Landscape is the easiest-to-learn and easiest-to-use CAD out there.

“ I never thought I could use CAD but PRO Landscape has made it so easy and intuitive.”  
– Eduardo Valencia, Photosynthesis Solutions

Create and print precise drawings in any size or scale.

- Start quickly with your measurements, a CAD or PDF file, survey/plot plan, Google Earth™ image or drone photo.
- Customizable symbols are pre-assigned to specific plant species.
- Design residential and commercial projects with irrigation, hardscapes, water features and outdoor living spaces.
- Create stunning full color CAD drawings with ease.

PRO Landscape produces more than just a pretty drawing

- Instantly calculates quantity takeoffs including length, area and volume for edging, walls, pavers, mulch, irrigation pipe and more.
- Add design details, plant legends, title blocks, dimensions, and other detailed specifications.
- Create print-ready PDF files in seconds.

“Creating bids has always been a chore but literally a mouse click with PRO Landscape and I have a complete proposal with plant information.”  
– Chris Walter, Computerized Landscape Design

## Close Sales with Winning Proposals

Increase your close rate with accurate, complete, professional proposals.

Create instant quotes from your photo imaging or CAD projects

- Easily produce proposal booklets including a cover page, price quote, material list, and detailed plant information with pictures giving your presentations that “wow” factor.
- Easily make accurate quotes by entering your own pricing, including labor and tax rates.
- Personalize your quotes by including your company logo and information on all your proposals.

# PRO Landscape®

DESIGN SOFTWARE

## Windows®

Intel, AMD, or equivalent processor (32 or 64-bit)

Microsoft® Windows® 8, 10, or 11

6 GB RAM Minimum

USB Port
